

About Aqua Ben

We've been innovating and providing industry leading specialty chemicals and polymers since 1976.

Technical Guidance

Aqua Ben offers unparalleled customer support, consulting and personalized service.

Innovation

Aqua Ben lives at the intersection of experience and innovation. For nearly 50 years we've led the way in formulation expertise.

Pond, Canal & Waterway

Soilfloc® Sealant - Two part Polymer-Based pond sealant. When applied, the polymer finds the leaks in the bottom of your pond or earthen body of water, settles in and expands over the course of two weeks, effectively sealing your pond and eliminating unwanted drainage and offering seepage control.

Available in the US and Europe.

Soilfloc® Set-L (Tablets) - Water soluble linear Polyacrylamide (PAM) tablets, designed to improve water quality by flocculating and settling suspended clay particles in run-off water. For > 400,000 gallons.

Available in the US and Europe.

Soilfloc® Set-L (Logs) - Water soluble linear Polyacrylamide (PAM) logs, designed to improve water quality by flocculating and settling suspended clay particles in run-off water. For < 450,000 gallons.

Currently available in the US only.

Soilfloc® C-Thru - (Liquid Formula). A high purity, powerful liquid coagulant developed specifically for water treatment. C-Thru is metered into your water with a pump and circulated throughout your pond, providing crystal clear, algae free water.

Currently available in the US only.

Erosion Control

Soilfloc® 100D (Dry)

Soilfloc® 300E (Emulsion)

Hydroseeding

Soilfloc® DryTack

Soilfloc® LiquiTack
